## A new brand of SNCF Geodis

SNCF Geodis is launching a new brand, Captrain, covering its international rail haulage activities.

The creation of Captrain, following the buyouts made over the last two years, confirms the objective of the SNCF Geodis to integrate and develop its various international activities.

It has thus created new perimeters under the Captrain brand name:

In Benelux, Captrain groups SNCF Fret Benelux, Veolia Cargo Belgium, Veolia Cargo Netherland and ITL Benelux.

In Germany, Captrain Deutschland groups together SNCF Fret Deutschland and Veolia Cargo Deutschland.

In Italy, Captrain Italia groups together SNCF Fret Italia and Veolia Cargo Italia.

In other developments, Freight Europe UK and VFLI Romania have been renamed Captrain UK and Captrain Romania.

Through Captrain, SNCF Geodis aims to better meet the needs of its clients, carriers and forwarding agents and their increasingly European transport flows.
